

APPLYING FOR PUBLIC HOUSING/HOUSING CHOICE VOUCHER PROGRAMS

The federally funded Low-Rent Public Housing Program provides quality, affordable rental housing for families, seniors, and persons with disabilities at developments that are owned and managed by the Housing Authority. The agency owns and manages 55 public housing units in the City of Winslow.

Pursuant to program requirements, residents typically pay about 30 percent of their annual adjusted income for rent. Utility allowances are provided to assist with utilities that are not provided for households residing in developments and where tenants are responsible for their own utilities.

The Housing Choice Voucher program, formally called Section 8

The Winslow Public Housing Department is primarily responsible for housing applicants in the City of Winslow but extends Housing Choice Voucher (Section 8) services in Navajo and Apache Counties.

Wait List Information

Unfortunately, the Housing Authority lacks sufficient housing supply to meet the demand for public housing units in Winslow. The average waiting period for public housing is 12-18 months depending on family size. We have no one bedroom units in public housing thus single member applicants must apply for the Housing Choice Voucher Program; formally called Section 8.

You have the right to accept or decline a public housing offer. Clients who decline an offer will be withdrawn from the waiting list and will not be eligible to reapply until 1 year after the withdrawn date.

To update your contact information or, check or on the status of your Public Housing application, please contact the Public Housing office by phone at 928-289-4617 or, fax at 928-289-3848.
